

The right fit, the first time¹

*Revolutionize your mask fitting process
with the Philips Respironics Mask Selector*

Say goodnight to refits with data-
driven mask selection and fitting

*Results from a 2019 Philips
Respironics clinical study with
310 patients¹:*

Right fit

At initial setup

9 out of 10

patients needed **only one
mask fitting** with Mask Selector
at initial setup²

Patients were **53%**

more likely to wear the
recommended mask through
the first 90 days of compliance²

When fit using Mask Selector

Patients had a **lower average mask leak rate**
vs. those fit using traditional methods³

Patients report
being **more
confident** they will
continue to use their
recommended mask⁴

**Feel confident that you're setting
your patients – and your business –
up for long-term success with the
Philips Respironics Mask Selector.**

*Tablet not required. Software and camera are compatible with PC laptops and desktops. Camera sold separately.
