No product will be delivered to the Customer until Philips has received copies of the fully executed lease documents and has approved the same. For any lease, if the lease does not fund then: (i) Customer guarantees the payment of all monies due or that may become due under this agreement; (ii) Philips may convert the lease back to a purchase and invoice Customer; accordingly, and, (iii) Customer will pay all such invoiced amounts per the invoice terms. If Customer provides its own storage, Customer is responsible for procuring any specialty software or hardware (fiber channel or host bus adapter ("HBA")) necessary to manage storage and allow the system to access the storage. Customer is responsible for providing fiber channel switches, port upgrades, and other telecommunications and/or network hardware required for the Philips products to physically connect to the storage, regardless of whether Philips provides the storage.

9. Certified Hardware

9.1 Philips shall install the Licensed Software solely on certified hardware pursuant to Philips' specifications where such certified hardware is identified and located on Philips website Hardware Specifications - Philips (http://www.usa.philips.com/healthcare/product/HCTN198/intellispace-cardiovascular?int_origin=2_HC_landing_na_us_en_clinical_informatics_cardiology_informatics_more).

10. Storage Sizing

10.1 Upon request, Philips will provide Customer with estimates of image study sizes for different types of studies that Customer can use as a general aide to calculate and determine its near-term and long-term storage requirements for Cardiology and HCIS picture archive communication system solution. Customer is responsible determine what storage archive device types and sizes are required to support its Xcelera, Cardiology Enterprise Viewer solution, IntelliSpace Cardiovascular (ISCV), or IntelliBridge Enterprise Licensed Software (IBE) , whether through procurement from Philips or utilization of Customer's own existing storage solutions. Customer acknowledges that use of storage varies greatly based on its unique utilization of the system and based on factors that are outside Philips' control. Therefore, and notwithstanding any estimates provided to Customer by Philips, Customer is solely responsible to determine what storage archive device is best suited to meet its needs. As part of its decision making process in connection with archive device storage size, Customer acknowledges that study sizes are affected greatly by (a) changes in the types and amount of modality equipment used, (b) technician discretion in file size creation, and (c) clinical protocols within a department. Customer is solely responsible for system administration for the Xcelera, Cardiology Enterprise Viewer, IntelliSpace Cardiovascular (ISCV), or IntelliBridge Enterprise Licensed Software (IBE), solution, which includes monitoring the storage archive device for its utilization levels and planning any necessary storage changes as Customer's requirements change.

11. Unauthorized Patches and Anti-Virus Updates

11.1 Customer's installation or use of (a) operating system patches, updates or upgrades; (b) anti-virus updates (except to the DAT files i.e. virus definitions); or, (c) upgrades to anti-virus search engines without prior validation testing and approval by Philips (Unauthorized Updates) may adversely affect the functionality and performance of the Licensed Software. Philips shall perform validation testing of certain Microsoft operating systems, and McAfee and Symantec's anti-virus software during the warranty period. Philips shall have no obligation to validate any other third-party operating system or anti-virus software. If Customer installs or uses Unauthorized Updates, Philips shall have no liability or responsibility for performance of the Licensed Software and the warranty shall be void. If Customer is using Unauthorized Updates when requesting service support or an Unauthorized Update is discovered by Philips after commencing the technical support process, then, prior to being obligated to perform warranty support services during a service period, Philips may require Customer to roll back to the most recent operating system and anti-virus search engine versions that have been validated by Philips as posted on the Philips service internet site.

12. Interfaces

12.1 Xper IM, Xper Flex Cardio & Xcelera, HCIS, Cardiology Enterprise Viewer and IntelliSpace Cardiovascular (ISCV), and IntelliBridge Enterprise Licensed Software Interfaces (IBE). Philips' obligation to provide any Xper IM, Xper Flex Cardio IM, Xcelera, Cardiology Enterprise Viewer, or TraceMasterVue, Intellispace ECG, IntelliSpace Cardiovascular (ISCV), or IntelliBridge Enterprise Licensed Software (IBE) interfaces is expressly conditioned upon Customer enabling its Hospital Information System (HIS) system to send and receive HL7 messages to and from the applicable Philips products by the date the products are available for first patient use. If Customer has not fulfilled its interface obligations by such time, Philips may, at its discretion, terminate any interface obligations and refund any pre-paid amounts for interfaces against the applicable purchase order. Customer will execute any documentation reasonably requested by Philips to document such terminated interfaces. Upon Philips issuance of a refund in accordance with this section, Customer shall be

deemed to have accepted the applicable Philips products. Any interfaces terminated shall be re-evaluated under a separate new sales contract.

13. Customer Controlled Workflow Tools

13.1 Certain Philips products contain Customer maintained tools used in the creation and maintenance of interfaces, forms, screens, reports, data mappings, and calculations (Customer Controlled Workflow Tools). Because these tools control what information is presented to the end-user and how the information is presented, Customer must thoroughly test and validate each interface, form, screen, report, mapping, and calculation after making any changes to the Product or to external systems that supply data to the Philips product. Failure to do so could result in information being presented to the end-user in a manner different than originally configured, less desirable to the patient care giver and negatively impacting patient care outcomes. Therefore, prior testing of any of the above changes by the Customer is recommended by Philips. In all cases, Customer is solely responsible for data field population in Philips products directly arising (i) from Customer's use of the Customer Controlled Workflow Tools or (ii) through the receipt of information delivered from a non-Philips information system that has been modified post project implementation test. These factors are not within Philips control.

14. Frequent Data Backup/Disaster Recovery Responsibility

14.1 Philips is not responsible for the development or execution of a business continuity/disaster recovery plan or backing up the data and images processed by the products sold under Schedule 3. Philips is also not responsible for backing up the data in the CVIS core data database and any associated files. Customer is responsible for performing frequent backups of any data, patient information or images residing on the repository database, on Philips products, or an archive.

15. Statement of Work (SOW)

15.1 Professional services in connection with Xcelera, Xper, Cardiology Enterprise Viewer, IntelliSpace Cardiovascular (ISCV), or IntelliBridge Enterprise Licensed Software (IBE) shall be performed pursuant to a statement of work (SOW) which the parties will execute and attach to the applicable quotation, subject to the terms set forth in these Terms and conditions of Sale and the applicable quotation. Philips may reject orders for these Products without an SOW.

16. Support Services

16.1 During the applicable product warranty period, Philips shall provide, at no charge to Customer, Philips' then-current in-warranty service for the products. Customer shall use Philips Remote Service (PRS) service to enable Philips to access the system to perform its support obligations.

16.2 Warranty exclusions set forth in Section 8.6 of Philips Terms and Conditions of Sale also apply to Support Services hereunder. The conditions that resulted in the exclusion of product warranty coverage, set forth in Section 8.6, shall also apply to any service provided during an in-warranty or post warranty coverage period.

17. Systems Administration Requirement

17.1 Customer, at all times, shall have a designated systems administrator that has completed systems administration training for the version of the product running at Customer's site. Systems administration training is set forth in the quotation.

18. Migration

18.1 Philips standard migration tool set-up service (Migration Tool Set-Up Service) consists of Philips installing a migration solution tool, configuring the migration interface, testing the migration solution tool, and training the Customer to operate and manage the migration tool for Customer to perform the data migration (Migration Set-up Tool Activities). For the purposes of clarification, Migration Set-Up Activities do not include Philips performing the migration, including starting and stopping the migration tool process, loading off-line media, monitoring the process, and correcting the migrated data (and not any Data Migration Project Management Consulting Service).

18.2 Unless Customer purchases a separate data migration project management consulting service from Philips and signs an SOW clearly indicating that Philips will be performing and managing the data migration on the Customer's behalf (Data Migration Project Management Consulting Service), Philips is responsible solely to perform the Migration Set-Up Activities.

18.3 In all instances, Philips shall have no responsibility under either its Migration Tool Set-Up Service or Data Migration Project Management Consulting Service to: (a) locate missing studies; (b) fix corrupt media or studies; or, (c) repair failed Customer legacy hardware discovered during the migration service. Philips shall have no responsibility under the

18.4 Migration Tool Set-Up Service or Data Migration Project Management Consulting Service to migrate studies affected by the foregoing events. Additionally, Customer shall have the sole responsibility to estimate the number of studies required to be migrated and to pay any additional costs that result from an inaccurate estimate.

For any lease, if the lease does not fund then (i) Customer guarantees the payment of all monies due or that may become due under this agreement (ii) Philips may convert the lease back to a purchase and invoice Customer accordingly and (iii) Customer will pay all such invoiced amounts per the invoice terms. In the event that there are multiple solutions on one quote the solution with the longest period for converting the transaction to a lease shall prevail.

9. Philips IntelliVue Products

- 9.1 The following applies in the event Customer elects to use the Philips IntelliVue Information Center on its general network versus dedicating a separate IntelliVue Clinical Network to support the communication between the Philips IntelliVue Information Center and the Philips IntelliVue bedside Vital Signs Patient Care Monitors:
- 9.2 The Philips IntelliVue Information Center is a secondary vital signs monitoring tool that is used by Customers to monitor the activity arising from alarms that sound from a Vital Signs Patient Care Monitor at the patient bedside. Philips advises that the likelihood of network or bandwidth outages is generally greater when using a medical device on a general network vs. a network dedicated solely to its use. In the event of a network or bandwidth outage were to directly affect the Philips IntelliVue Information Center's ability to communicate with a bedside Monitor, the Philips IntelliVue Information Center would not be available to get real time alarm information from a bedside Monitor. Accordingly, Customer is reminded that its nursing protocols at the patient room floor must be based on using the Philips bedside Monitor, at all times, as the primary medical device to use and respond to, for monitoring patient's vital signs at the patient bedside.

 - 10.2.2 Customers are prohibited from applying operating system patches, point releases, updates, and/or upgrades ("OS Modifications"), prior to their validation by Philips for use with Clinical Informatics Products, and IntelliVue Information Center Family of solutions. Customer is solely responsible for issues arising from use of these products with a non-validated OS Modification. Philips shall post on its technical support website which OS Modifications are validated and approved for use with these products. Philips shall have no obligation under a warranty or services to resolve technical issues arising from these products being run with non-validated OS Modifications and Philips will require that Customer roll back the OS to a validated and approved version prior to being obligated to perform

- 10.2.5 See "Security for Clinical Networks" for additional security related information.
- 10.3 Interfaces.
 - 10.3.1 Philips' obligation to provide any interfaces is expressly conditioned upon Customer enabling its HIS system to send and receive HL7 messages to and from the applicable Philips products by the date Philips' products are available for first patient use. 12. Customer Supplied Network (CSN) Installation and Configuration Responsibilities

- 12.1 Philips provides information on which patient monitoring devices (and in what locations) will be connected to the CSN following the standard IntelliVue Clinical Network design rules. During the CSN installation process, Philips is responsible for proper configuration and physical installation of the Philips patient monitoring products ("Philips Products"). In CSN situations, Philips does not configure the network or connect the Philips Products to the network. Customer has ownership of these tasks.
- 12.2 Customer Responsibilities:
 - 12.2.1 Installation. It is Customer's responsibility to configure the network infrastructure devices as specified in the Philips CSN specification document. After Philips has completed physical installation of the Philips Products, it is the Customer's responsibility to connect the Philips Products to the hospital network infrastructure, and to confirm the Philips Products have a network that meets the CSN specification document.

The following additional terms shall apply to sale of Licensed Software Products (“EDI Software and Services Solutions”) under this Schedule:

1. License Term & Limitations

Notwithstanding anything contrary in Philips standard terms and conditions of sale, the following license terms and restrictions shall apply and govern in the event of conflict with terms expressly set forth in the Philips standard terms and conditions of sale:

1.1 Definitions.

- 1.1.1 “License Commencement Date” shall mean the date that Philips makes the EDI Software and Services Solutions available to Customer for first use consistent with the usage rights and restrictions under the terms of this Agreement and upon completion of the installation of any server(s) provided by Customer as part of the Customer Provided Hardware or purchased through Philips and related network infrastructure. Acceptance of all EDI Software and Services Solutions shall occur upon the License Commencement Date. Customer shall promptly sign the Philips Medical Device Installation Record (“MDIR”) form, if requested, at such time. All fees for licenses commence at the same time and, in the event of multiple sites, all licenses and fees start upon the License Commencement Date for the first site, unless otherwise provided on a Quotation.
- 1.1.2 “Quotation” shall mean the Philips quote affixed to this schedule signed by the Customer for the Philips EDI Software and Services Solutions. Each Quotation shall list all the fees and any license limitations applicable to customers purchase of licenses, maintenance and support, professional services, including all installation, migration, interfacing tasks set forth on a Statement of Work. All Licenses fees, maintenance fees, subscriptions fees and professional services fees, as applicable, shall be payable per the payment terms in the Quotation.
- 1.1.3 “Statement of Work” shall mean the Philips statement of work signed by the Customer and Philips at time the Customer places its order to purchase EDI Software and Services Solution. A statement of work shall be required for all EDI Software and Services Solutions and such document shall address in general terms all interfacing and professional services delivery project scope requirements, at minimum.

1.2 Term License Model with Separate Maintenance and Support Purchase Option. Under this sale model, each EDI Software and Services Solution license shall commence upon the License Commencement Date (as defined in Section 1.1 above), and continue for the license period set forth on the Quotation (“Term License”). Furthermore, in addition to the warranty set forth in Section 1.4, Philips shall provide the maintenance and support services set forth in Schedules A and B affixed to this schedule for a period of ninety (90) days. Customer’s purchase of maintenance and support services post warranty of the Term License are optional and not required. Therefore, Philips shall have no obligation to perform maintenance and support on the Term License software, for any period post warranty that Customer has elected not to purchase maintenance and support agreement coverage. The license to a EDI Software Solution shall expire upon the final anniversary date of the License Commencement Date based on the number of years in the Term License, unless customer renews the license term prior thereto. In the event Customer elects to purchase maintenance and support services for a post warranty period, such maintenance and support services shall be provided under the terms of this Terms and Conditions of Sale, including Schedules A and Schedule B, as applicable; provided that, Customer issues a purchase order with a separate line item listing the post warranty maintenance and support purchase per the Philips post warranty service Quotation.

1.3 Software Solution Subscription Option. Under the subscription service model, commencing upon the License Commencement Date the Customer receives an annual subscription license for the number of years set forth on the Quotation (“Subscription License Term”), and the maintenance and support set forth in Schedules A and Schedule B, as applicable, affixed to this schedule for the entire Subscription License Term for one annual fee (“EDI Software and Services Solutions Subscription Option”). Thereafter, the then current EDI Software and Services Solutions Subscription Term shall expire on the end of the last anniversary date of the Subscription License Term, unless Customer renews the subscription term prior thereto.

1.4 Products Warranties for all sales Models 1.2-1.3. The warranties set forth in Section 8.3 and Section 8.5-8.7 in the baseline Agreement shall apply to sales of the EDI Software and Services Solutions purchased under Section 1.2-1.3 of this Schedule.

- 1.5 All licenses are subject to a limited number of sites (by physical address), users, connections and study or exam volume set forth in the Quotation. In all cases a "Site" shall mean a unique physical street address for imaging equipment that has usage information sent to or pulled by the EDI Software and Services Solutions Licensed Software and "Users" shall mean the number of named users that are employees or contract temporary employees by the Customer legal entity expressly set forth on the Quotation and/or Statement of Work. Customer shall have the right to replace a User with a different named User at no additional charge; provided that, the User being replaced is permanently no longer using the EDI Software and Services Solutions Licensed Software to benefit Customer.
 - 1.6 Prior to the assignment of any licenses, including an assignment pursuant to a purchase of substantially all of the Customer's assets, organic growth or expansion plans, Customer will provide Philips with written notice along with reasonable data to determine how such events will impact the licensing limitations applicable to each License. These events may require the Customer purchase additional Licenses to address a change in the number of Users, Sites, connections and Annual Exam Volume prior to the use of EDI Software and Services Solutions Licensed Software for such events.
 - 1.7 Subject to fulfillment of any payment obligations by Customer arising from the use of the EDI Software and Services Solutions Licensed Software, Philips grants Customer the applicable license under the model quoted. The parties agree that all fees were negotiated based upon Customer's commitment to the full Term. Philips' damages in the event that the Term is terminated early would be difficult or impossible to ascertain. The Termination Charge is intended, therefore, to establish liquidated damages in the event of termination and is not intended as a penalty.
- 2. Billing based on Customer Delays & Offset**
- 2.1 Billing. Customer shall pay Philips invoices per the payment terms set forth in the Quotation or within thirty (30) days of Philips' invoice date.
