

A photograph of two men in business attire. The man on the left is older, with grey hair, wearing a white suit jacket, a light blue shirt, and a blue tie. The man on the right is younger, with brown hair, wearing a grey suit jacket over a blue and white checkered shirt. They are both leaning over a table, looking at a large sheet of paper. The younger man is holding a yellow highlighter. The background is a bright, out-of-focus office setting.

PHILIPS

SymphonySuite

One stop
from passion to possible

Philips SymphonySuite

When it comes to opening an OBL or ASC, **SymphonySuite** is the one convenient solution that takes you from passion to possible.

Philips SymphonySuite is **the industry leader** in opening independent OBLs and ASCs.

SymphonySuite uniquely offers:

Convenience

One company, many services and connections. SymphonySuite offers high-performing, highly specialized equipment and service, streamlined contracts that reduce administrative hassles, and ongoing operational support so that doctors can concentrate on what matters most

Experience

Philips SymphonySuite is the industry leader in working with physicians to open OBLs and ASCs. We orchestrate the details including financing options, site-planning, equipment, business solutions, guidance on construction partnerships and more. Our knowledgeable team personalizes each solution to reduce administrative hassles, and we help doctors choose the right partner at the right time.

Personalization

Our knowledgeable team personalizes each solution to reduce administrative hassles, and we help doctors choose the right partner at the right time.

Freedom

Opening an OBL or ASC gives you the freedom to decide how and when to treat your patients as well as more control over your own schedule and work/life balance. It offers the opportunity to provide a more personalized, patient-focused approach to medicine and to own your practice.

The right package makes **your OBL possible**

We have a full range of the high-performing, highly specialized equipment as well as the devices you need to launch and grow your business, including imaging systems, patient diagnostic monitoring equipment, and devices.
